Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-4, 6-8, 11-14, 35 and 36 were pending in the instant application at the time of the previous Office Action, mailed March 8, 2007. By the latest amendment, filed June 8, 2007, claims 13 and 14 are cancelled. Therefore claims 1-4, 6-8, 11, 12, 35 and 36 remain pending and have been examined.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Moskowitz et al. 7,007,166.

Moskowitz teaches a method for embedding secret information in an input signal and extracting the secret information from the input signal (Abstract), comprising: embedding said secret information in a prescribed position in an input signal (col. 9 line 60 through col. 10 line 62), and embedding position information (col. 9 line 60 through col. 10 line 62) which specifies the position where said secret information is embedded, in a position in said input signal different from said input signal (col. 9 line 60 through

col. 10 line 62), extracting said position information from said input signal (col. 9 line 60 through col. 10 line 62) and based on at least the position information extracted, extracting the secret information from said input signal (col. 9 line 60 through col. 10 line 62).

Allowable Subject Matter

4. Claims 1-4, 7, 8, 11, 12, 35, and 36 are allowed.
